Allowable Subject Matter

1. Claims 21-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a tool replacement method as claimed in independent claim 1, specifically wherein the combination of limitations includes each of the forward nut driver and reverse nut driver resiliently supported in a rotary mount mounted to the nut driving station for rotation of a nut of the spindle as is currently claimed.

The closest prior art is US Pat. No. 6,030,326 (Azuma et al.) as is discussed in detail in the previous office actions.

Azuma et al. does not disclose a forward nut driver and reverse nut driver, each of which are resiliently supported in a rotary mount mounted to the nut driving station for rotation of a nut of the spindle.

Therefore Azuma et al. does not anticipate the claimed invention of independent claim 1.

Furthermore, there is no prior art, either alone or in combination with Azuma et al., that would render obvious the claimed invention, and furthermore, to modify Azuma et al. to obtain the claimed invention would require hindsight and furthermore would destroy the workability of Azuma's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
